

High-Performance Food Blender HBF400

The power busy kitchens need to mix, blend, chop, and puree hot and cold food and serve it up fast. Perfect for health care's special diets, nursing homes, restaurants, hotels, and bars.

3 Reasons to Buy! Performance

- 2 speeds with pulse option for blending, mixing, chopping, and pureeing
- Powerful 1 Hp motor with the torque needed to blend thick, heavy mixtures

Durability

- All-metal drive coupling is built to last
- Tough 64 oz. stainless steel container

Ease of Use

- Timer automatically turns blender off after a preset time
- Removable dosing cup

2 Speeds with Pulse - Designed for precision blending, mixing, chopping, and pureeing a wide variety of food and drink mixtures.

Timer with Automatic Shutoff - Helps prevent overblending and frees up operators for other tasks.

1 Hp Motor - Offers excellent power and torque and features an all-metal drive coupling for lasting performance.

64 oz. Stainless Steel Container - Extra-large capacity saves time when blending for large groups; comfortable, easy-to-grip handle makes pouring heavy contents easier.

Removable Dosing Cup - Lets the operator easily add liquid while blending without spillage.

Stainless Steel Blades - Quickly cut through ingredients for easy blending.
